

# About This Guide

---

This section describes the objectives, audience, organization, and conventions of the Cisco ConnectPro software.

The information in this guide supplements the *Cisco 750 series and Cisco 760 series Command Reference* and the *CiscoPro CPA900 Series Command Reference* that you received with your order. Refer to the command reference for in-depth information on any feature or function of ConnectPro.

If you are familiar with the standard conventions for navigation and mouse usage in Microsoft Windows Version 3.1, you will be able to use Cisco ConnectPro. If you need to know more about these topics, please see your Microsoft Windows documentation.

Cisco product documentation and additional literature are available on a CD called Cisco Connection Documentation, Enterprise Series. The CD is updated and shipped monthly, so it might be more current than printed documentation. To order the Cisco Connection Documentation, Enterprise Series CD, contact your local sales representative or call Customer Service. The CD is available both as a single CD and as an annual subscription. You can also access Cisco technical documentation on the World Wide Web

URL<http://www.cisco.com>.

## Document Objectives

This guide takes you through the initial site preparation and installation of Cisco ConnectPro software. For additional information on any discussion in this guide, refer to your *Cisco 750 Series and Cisco 760 Series Command Reference* or your *CiscoPro CPA900 Series Command Reference*.

## Audience

This guide is designed for the person configuring the Cisco 750 series, the Cisco 760 series, and the CiscoPro CPA900 series routers.

## Document Organization

The chapters in this guide are as follows:

- Chapter 1, “Cisco ConnectPro Overview,” contains an overview of the Cisco ConnectPro features and the system and network requirements.
- Chapter 2, “Installing Cisco ConnectPro,” contains the procedures for installing the Cisco ConnectPro software.
- Chapter 3, “Simple and Advanced Windows,” provides configuration schemes for both nontechnical and advanced users.

## Document Conventions

This guide uses the following conventions to convey instructions and information.

Command descriptions use these conventions:

- Commands and keywords are in **boldface** font.
- Vertical bars ( | ) separate alternative elements.
- Square brackets ( [ ] ) indicate optional elements.
- Alternative and required keywords are grouped in braces ( { } ).

---

**Note** Means *reader take note*. Notes contain helpful suggestions or references to materials not contained in this manual.

---

**Timesaver** This symbol means the described action saves time. You can save time by performing the action described in the paragraph.

**Caution** This symbol means *reader be careful*. In this situation, you might do something that could result in equipment damage or loss of data.

**Warning** This warning symbol means danger. You are in a situation that could cause bodily injury. Before you work on any equipment, be aware of the hazards involved with electrical circuitry and be familiar with standard practices for preventing accidents.
